Dear Dr. Meselson:

It was most pleasant and illuminating to discuss matters of common interest with you at lunch today. Thank you again for all the good leads, good information, and good insights.

I am enclosing copies of the title page of the Medical Department volume on gas warfare, along with the table of contents and several other items from the book (which I think may all be on one page).

I'm also enclosing the slides for Colonel Dupuy's first two lectures on ground combat, about which we spoke today.

The address we use for Joe Fearey is one you would have already:

Dr. Joseph Fearey
Jet Propulsion Laboratory
California Institute of Technology
4800 Oak Grove Drive
Pasadena, CA 91103

Colonel Dupuy and I are both looking forward to seeing you in January.

Sincerely,

Gay Hammerman
