April 15, 1983

Prof. Matthew Meselson
359 Biochem Labs
Cambridge, MA

Dear Professor Meselson:

I'm sorry I won't be able to make the meeting today. Some visitors arrived unexpectedly, and I'm afraid I'm committed to take care of them.

I hope the meeting is successful. I made my way through approximately half the material. It is an obviously complicated issue, somewhat outside my area of competence, I'm afraid. If there are any new ideas about the pollen issue, I'd be interested to keep informed.

Again, apologies for not making it to the meeting.

Sincerely yours,

Mike
