Cambridge, Massachusetts 02138

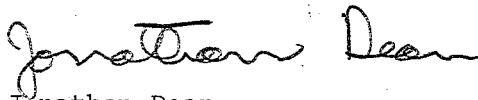

Dear Professor Meselson,

Just a brief note to tell you that I thoroughly enjoyed the session with your class yesterday; it is a credit to your instruction. Your teaching assistant is a good man.

I enclose two articles which may be of help in the NATO-Pact context. Sometime later, I may go through my files and dig out some more if this type of material interests you.

I wish you great success in your Yellow Rain project; a fascinating and immensely worthwhile endeavor.

With best regards,

Jonathan Dean  
Resident Associate
