Dear Professor Meselson,

7/25/83

I have no major comments on the summary of the Yellow Rain Conference. For the summary of the botany, palynology, and mycology working group the botanical name "fusarium" should be capitalized and underlined.

Last week I learned that I have been offered a one year fellowship to Thailand by the Fulbright Foundation in cooperation with the United States Information Service. It is not yet clear when I will be going to Thailand, but I suspect that it will be sometime around next May. My primary purpose in going will be to do research for my thesis, but perhaps I could be of some use to you as well. I will keep you posted about my plans.

Yours sincerely,

GORDON
