Cambridge, Massachusetts 02138

Dear Dr. Meselson:

Many thanks for allowing me to photograph your examples of yellow rain for the National Geographic pollen story. Everyone who has seen the pictures is fascinated and I'm sure Geographic readers will be too.

I have snuck out a few reject slides for you and made dupes which you are welcome to use in slide shows or whatever. It is very important that these not appear in print until 60 days after the article (or I will be in big trouble!)

Many thanks again for your help.

Sincerely,

Martha Cooper
