STS Program
632 Clark Hall
Ithaca, New York 14853

Dear Frank,

I have not been able to come to any of the CISS meetings because of scheduling conflicts. Nearly all of the CISS meetings have been scheduled at the time of regular meetings of my Department. I would like to attend CISS meetings and therefore request that in future the Academy attempt to contact members in advance to optimize participation.

For your interest, I am enclosing an advance copy of an article on Yellow Rain for Scientific American.

Sincerely,

Matthew Meselson
