August 11, 1985

Dear Matt:

One of my board members, Retired Admiral Thomas Davies, wrote the enclosed op-ed suggesting that a vaccine be developed against chemical weapons. Is this idea feasible? Could you please read the paper and give me your comments on it? I don't want to submit it anywhere if it is scientifically flawed.

Many thanks. How are things going with you? I hope our paths will cross one of these days.

Cordially,

(Cohn)

Dear Anne,
