Dear Matt:

Thank you for the reprint. It is absolutely convincing, but I had already found your earlier presentations convincing. Anyone with an open mind I am sure is convinced. However, the people who put forward this idea were not interested in the truth, but in scoring points against Russia. Unfortunately, the present administration, and probably past ones too, seem not to care too much about the truth.

I hope you had a good summer and that you and your family are well, and with best regards,

Sincerely yours,
