Harvard University
7 Divinity Avenue
Cambridge, Massachusetts 02138

Dear Matthew,

CONGRATULATIONS on resolving the yellow rain riddle with such a broad compilation of evidence. You and your co-authors have done a service to the public as well as made a significant contribution scientifically. What you all have done is science at its best. I feel proud to have been even a small part of the investigation.

Thank you for sending the reprint from Scientific American. I plan to use it in my course Anthropology of Refugees when we discuss the value of oral testimony.

Best regards,

Marjorie A. Muecke
Associate Professor, Nursing
Adjunct Associate Professor, Anthropology
