Professor Matthew Meselson,  
Dept. Biochemistry and  
Molecular Biology,  
Harvard University,  
7 Divinity Avenue,  
CAMBRIDGE, Mass. 02138,  
U.S.A.

Dear Professor Meselson,

It was very good of you to send me the fascinating article on "Yellow Rain" which is due to appear in the Scientific American. It is a most exciting detective story. Many thanks.

Enclosed is ~~the reference to~~<sup>\*</sup> a paper by Greenhalgh et al, somewhat related to this subject; I expect you probably already have seen it. Also a couple of my recent publications, related to mycotoxins.

With Best Wishes,

Yours sincerely,

*R. Schoental*
