Dear Matt:

Thanks so much for your thoughtfulness in sending me the article on "Yellow Rain." I had assumed--from the silence here in Washington--that you and your colleagues must be on to something quite convincing. Now I have the proof of it. It is quite an intriguing story and investigation, although I suppose some will reject the findings because the cause is so, well, almost pedestrian. I hope someone in the media will pick it up.

With best regards,

Bill
