Professor Matthew Meselson  
Department of Biochemistry  
and Molecular Biology  
Harvard University  
7 Divinity Avenue  
Cambridge, Mass. 02138  
U.S.A.

Dear Professor Meselson,

Thank you very much for your letter dated August 28, 1985 and the enclosed article on "Yellow Rain" which you and your colleagues have studied. I read it with great interest especially the conclusion that the yellow rain is the feces of honeybees, not an agent of chemical warfare.

Some of my colleagues also read your article. Thank you again.

Sincerely yours,

*T. Stitnimankarn*

Tinrat Stitnimankarn, M.D.  
Emeritus Professor of Pathology
