France

Dear Herbert,

I am writing to ask if you were able to learn anything about the analytical findings of Lafont at Vesinet. In particular how many samples he analyzed, what they looked like, where they were from and what he found. Also what controls were done and what was his own evaluation of the qualifications, if any, that may pertain to the results.

I am hoping to visit Paris again sometime in July. I will look for you then although I realize you may be on vacation at that time.

Warm regards,

Matthew
