Dear Matt,

I was very pleased to talk with you today, to hear your distinguished (I mean it) presentation at the Congress and to learn of the confirmation of your results on yellow rain from the UK.

Do you think it would be feasible to Xerox JP Perry Robinson's full SIPRI text, of which you gave us an extract in your talking paper, & send it to me here? If you are short-handed, I can perhaps borrow a copy from Brad Roberts and rent it off here. Please let me hear.
Best regards,
Jonathan Dean
