

Gelb

June 8, 1986

Mr. Leslie Gelb
The New York Times
1000 Connecticut Avenue, NW
Washington, D.C. 20036

Dear Les,

Unless I missed it, the NYT reported only the silly State Department comments on this important story itself. I know that these things can happen inadvertently. But with compliance issues so important for the current debate on arms control, this omission from the journal of record is disappointing. I am off to Europe and Israel until July 10. Warm regards.

As ever,

Matthew Meselson
