Cambridge, MA 02138

Dear Matt:

Enclosed is a rapporteur's report covering the July 30 meeting of the CSIS study group on chemical warfare policy issues.

As you know, this concludes the series of meetings that have been underway since April. We will continue to meet on an ad hoc basis, however, as salient issues arise. The cochairmen and I would appreciate future suggestions for meeting topics and request that you keep me posted on any change in your mailing address. Please also keep in mind my offer to circulate to the group items written by any of its members.

I would like to express my thanks for your participation in the work of the study group. From my point of view, this has been a tremendously interesting and informative process, and I think we should be pleased with the substance of the discussions as well as their dispassionate tone.

I look forward to seeing you again on a future occasion. Thank you again for your support and involvement.

Sincerely,

Brad Roberts  
Research Fellow
