

Personal Memo from

Sverdlovsk

Thank you for the special  
effort you took to come down on  
Monday!

I've briefed Bill Casey that he  
has to take your account seriously;  
and I'll see Ken Adelman next  
week. I'll also seek what I think  
will be positive encouragement about  
the visit to US we talked about.

The press says that the Russians  
offered to talk about Sverdlovsk at  
the BWC review conference. There  
seems to be some problem about deciding  
on the most appropriate forum.

of course I want to stay in touch.
