Ellen A. Marks
Conference Director
The New York Academy of Sciences
2 East 63rd Street
New York, New York 10021

Dear Ms. Marks:

In response to your letter of September 26, I think that the meeting on dioxin problems described in the materials from Dr. Schechter would be a useful enterprise. The subject is topical and of both scientific and practical interest. Communication and coordination in the field would be benefited by having a conference of the sort suggested. The proposed attendance is balanced and represents an up-to-date knowledge of what is happening in the field.

Sincerely yours,

Matthew Meselson
Professor of Biochemistry
and Molecular Biology
