Dear Mr. Meselson.

I haven't thanked you for
your fear-sheets of the yellow skin
article as I hoped to send thanks
and some good news at one and the
same time. But to date no
luck. I mentioned your Mr. Arthur
tack to Sydney Lumet - the most
likely candidate amongst the movie
people I know - as his social
conscience is primarily charged. but
he had seen some footage on it -
presumably on NOVA (channel 13?) - and
felt the spreading of the idea had

filed pre-empted -

Should you need the four sheets back,
tell me. otherwise I'll hold on to them a
while and hope to have the article or
kind of opportunity states - I do agree
it would be good if the story were
better known.

I've had talks with Beryl Thomas
and Lewis - who sings your praises -
out loud. Has your ear been
itching? It should have been.

I so enjoyed your talk and meeting
you. Or please let us know if you pass
through New York (988-1360) or Long Island
(516) 537-0743 - we'd love to see you.

Again, thanks.
