Dear Matthew:

I am following up on my letter to you of last May in relation to your report on your trip to Russia and the discussions that you had with various individuals in September 1986 concerning the 1978 episode in Svredlovsk. I am especially interested in whether there has been any recent developments on the part of yourself or our government in relation to this event. I remain interested and happy to be of any assistance to you or others in attempting to further clarify this event.

Sincerely,

Philip S. Brachman
