AGENT ORANGE PROGRAM  
100 CAMBRIDGE STREET  
BOSTON, MASS. 02202

March 23, 1988

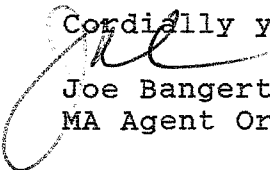

Dear Colleague:

Enclosed please find two interesting pieces of data. The first is a copy of the Massachusetts Dioxin Tissue Study as it was sent to CHEMOSPHERE.

The second piece is the recent Air Force study revising their 1984 health study which now leads them not to "exonerate dioxin as the causative agent" (pg. 29).

Good Day to you!

Cordially yours,

Joe Bangert  
MA Agent Orange Program
