Dear Matt:

I enjoyed meeting you at the AAAS San Francisco session "Implementing a Global Chemical Weapons Convention," and I want to thank you for allowing me to complete my question about the possibility of chemical weapons verification and the desirability of eliminating chemical weapons stockpiles.

As I had mentioned to you, Nina Byers and I would like to arrange for you to speak for our CISA Seminar on chemical weapons at a mutually convenient time. Perhaps your presentation could be scheduled on one of your forthcoming trips to Los Angeles, since you mentioned that you regularly do visit Los Angeles. Please let me know what date would be most convenient and also the title for your presentation (our CISA seminar meets from October through early June).

Enclosed is a summary of our program at CISA, including the CISA Seminar. Also enclosed are summaries of our three central research projects on "Alternative Approaches to Arms Control," "Emerging Nuclear Supplier States and Nonproliferation", and "International Cooperation and International Security."

I'm looking forward to hearing from you.

Best regards,

Michael D. Intriligator
Director
