US Army  
Natick Research, Development and Engineering Center  
CMDR STRNC-AC  
Natick, MA 01760-5015

Dear Dale:

Here are two papers co-authored by Dr. Hugh D. Crone, Research Leader, Protective Chemistry, Materials Research Laboratories, Defense Science and Technology Organization, Melbourne, Australia. His telephone number is 61-3-317-222. He is clearly one of the few people trying to think of novel approaches to the problem of heat stress in protective clothing.

I look forward to seeing you in the near future.

Sincerely,

Matthew Meselson  
Professor of Biochemistry  
and Molecular Biology
