Dear Dr. Meselson,

Enclosed is a draft of a newsletter on chemical weapons which will be issued in August by the Council on Economic Priorities. Later, a full study will be completed on this subject.

I would be grateful for your comments on this draft, which you can send in writing or simply telephone me. Later, I hope I can prevail on you to read the draft of the full study. Thanks so much for your help.

Sincerely,

*Betty G. L.*
