The Biological Laboratories
16, Divinity Avenue
CAMBRIDGE Mass. 02138

U.S.A.

Dear Professor Meselson,

It was very pleasant to see you in London. It seems it was quite a useful conference.

I should be very grateful if you as SIPRI BW Consultant would kindly comment on the working paper on the BW inspection project and suggest laboratories and industrial establishments in Europe which might be approached. You mentioned a research establishment in the Federal Republic of Germany, whose Director  understood, was your friend. Would you be kind enough as to let me know his address and perhaps also write him yourself?

We hope to carry out the inspections in June and then after the summer vacations. If you were in Europe at this time we would appreciate very much indeed, if you could participate in an inspection. Certainly your West-German friend would be delighted to have you on the inspection team visiting his laboratory.

With kindest regards,

Yours sincerely,

(Theodor Nemeč)
