Professor Matthew Meselson
60 Shepard Street
Cambridge, MA 02138

Dear Professor Meselson:

Thank you for your time and effort on our behalf last night. It was a truly enjoyable learning experience for all concerned.

As you can imagine we caucus by phone after each event and I know that my feelings are echoed by all the attendees. As I mentioned to you last night there will be a synopsis of your talk in our next newsletter and the Steering Committee will have your plea for action on the February 8 agenda. At the very least we will author a letter to Mr. Bush urging an abandonment of the 2% solution.

Again, thank you for lending us your expertise.

Sincerely yours,

Philip A. Heywood
Executive Director
