

Mets

February 9, 1990

Dr. David Mets
Munitions Systems Div/HO
Eglin Air Force Base, FL 32542-5000

Dear Dr. Mets:

At the suggestion of Richard Hallion, I am writing to ask your assistance in providing information for a paper I am writing regarding the history and present status of chemical weapons. In particular, I would like to know if the TMU-28/B chemical spray tank is qualified for any aircraft in use by any of the Services.

Sincerely,

Matthew Meselson
Professor of Biochemistry
and Molecular Biology
