Dear Al:

Thank you for your letter of January 15 to which this a tardy reply. I was in Washington earlier this week and found people at the NSC optimistic about achieving an effective Chemical Weapons Convention within a year to a year and a half.

I am becoming modestly involved with the problems of destroying chemical stockpiles. If you care to put me in touch with someone knowledgeable about cryofracture, I will try to become educated on the subject.

Best regards,

Matthew Meselson
