June 19th, 1990

Dear Dr. Messelson,

Many congratulations for receiving the 1990 Scientific Freedom and Responsibility Award from the AAAS. It was certainly well-deserved.

I've just come across the fact that the Physicians for Human Rights office may have overlooked sending you a reprint of the article we wrote on investigating allegations on the use of chemical weapons for the Journal of the American Medical Association. Your assistance in bibliographic research was invaluable, and I am enclosing a copy in case you don't have one (which I doubt, given your excellent methods of scouring the world's literature). Also enclosed is a companion article we wrote on tear gas that appeared in the same issue.

Please forgive the oversight. We are looking forward to your leadership in this area in the years ahead.

Sincerely,

Howard Hu, M.D., Sc.D., M.P.H.
Assistant Professor
