Scotland

Dear Ms. Lawrenson:

Thank you for your letter sent to Bologna which has caught up with me here in Cambridge. I gather that you are interested in the possibility of research at Harvard in the area of chemical weapons history and policy. If so, you should apply directly to the Center for Science and International Affairs at the Kennedy School of Government, of which I am a Faculty Affiliate. The Center would consider your application in competition with others for one of its regular research positions in which, in the chemical weapons area, I would probably act as advisor. If you do apply for a position at the Center, would you also please send me a copy of your cv and a copy of something you have written in the area of your professional interest?

Please send your application to:

Michael Stafford
Center for Science and International Affairs
John F. Kennedy School of Government
Harvard University
79 Kennedy Street
Cambridge, MA 02138

Sincerely,

Matthew Meselson
Professor of Biochemistry
and Molecular Biology
