Dr. Matthew Meselson  
Biological Labs  
Harvard University  
7 Divinity Ave.  
Cambridge, MA 02138

Dear Matt,

The next luncheon meeting of the Henry L. Stimson Center's Multilateral Verification Project will be held on Thursday, September 27th at twelve noon. Our topic will be security assurances and chemical weapons arms control. Our speaker will be Dr. James A. Schear, consultant-advisor to the United Nations Under-Secretary-General for Disarmament Affairs. Jim's talk and paper are a natural follow-up to our previous session with Lewis Dunn on the use of sanctions against chemical weapons' use.

We will meet in our usual quarters, the Carnegie Endowment Conference Center, located on the eighth floor of 2400 N Street, NW, Washington, D.C. Our meeting will begin at noon and adjourn by 2:30pm.

Please call 223-5956 to let me know if you can attend, and I will send you a copy of Jim's paper.

Best wishes,

*Michael*
