Dear Prof. Meselson

It was a great pleasure meeting you (finally!) at the Wilson/Stimson Conference here in Washington 2 weeks ago. The panels + the subsequent discussions were most interesting, and I hope to have my Report done soon.

I was also gratified by your interest in some of the work I've done on legal aspects of arms control in general and CBW in particular. I (immediately) enclose copies of a couple of pieces that might be of some interest.

If all goes well, I hope to teach a seminar course here at Georgetown next year, concentrating entirely on CBW + legal aspects thereof - should be a most interesting experience.

Sincerely,  
DAK
