Dear Prof. Meselson,

According to the information I have from Prof. V. Gubanov and from your E-mail message you have a plan to visit Ekaterinburg in early June, 4-14, 1992. We discussed a preliminary program of your stay here with Prof. Gubanov and other people in our university and we are making all arrangements for your successful work.

So, welcome to Ekaterinburg and to the Ural State University. We'll be happy to see here all the participants of your research program. As a President of the University and a Chairman of the Rector's Council of the city I'll do my best to make your visit useful and fruitful.

Our proposal for the next communication and starting of the activities is following. Professor Sergei F. Borisov of the Physics Department is willing to serve all the communication and some general arrangements for your visit because he has permanent E-mail and fax connection with US and he has a good contacts with the other institutions and city officials. The person with whom you will be working in the subject of your visit is Dr. Shepetkin of the department of biology. Besides Dr. N. Firsov who is a Dean of the Biology Dept. is willing to assist you during the stay your delegation here.

So, please contact for the details with Prof. S. Borisov [fax No. (343) 2 55-59-64, E-mail address is borisov@urgu.quorus.e-burg.su].

We look forward to seeing you here.

Sincerely,

Professor P.E.Suetin,
Rector
