Switzerland

Dear Pierre:

It seemed to me that our meeting in Moscow went in a good direction. Also, I appreciated the private conversations with several of the participants, particularly yourself.

You mentioned that you might be able to send me an enhanced image of the SPOT photography I showed you in Moscow. For that purpose I enclose a photocopy of the SPOT scene at the bottom of which I have written the geographic coordinates of the site of interest. In addition, here is a rather overexposed enlargement showing the facility itself, within a blue square.

I look forward to seeing you again.

Sincerely,

Matthew Meselson
