Dr. Meselson,

The quickest, and easiest way to avoid red-tape was to hand-receipt this mask to my office; so, for now, we'll just consider it on "indefinite loan" to you. I've included a skin decon kit and some detector paper for you as well.

Hope these items help; if you need any further assistance at any time, please feel free to call me or my associates. We'll do our best to help you any way we can.

Jim Allingham
