Cambridge, MA 02138

Dear Ash:

As you know, at the CSIA on Tuesday, April 23 at 10:00, Robert Mikulak from ACDA will bring us up to date on the chemical disarmament negotiations. If you want a lucid and authoritative update of the subject, I recommend Mikulak highly.

For your possible interest, I enclose a paper "The Role of Chemical Defense in Chemical Warfare, Chemical Deterrence, and Chemical Disarmament" based on the keynote address I gave at the Army Chemical Research, Development and Engineering Center.

Sincerely,

Matthew Meselson
