Dr. Pierre Canonne
Conseiller scientifique
Mission de la France
Villa "les Ormeaux"
36, route de Pregny
1292 Chambesy, Geneva
Switzerland

Dear Pierre:

Here for your possible interest is a revision of the "Measures for Consideration at the Third Biological Weapons Review Conference", the text of which but not the references appears in issue #11 of the Chemical Weapons Convention Bulletin.

On the possibility that my letter of February 12 went astray, here is a print of the SPOT photograph we have discussed. The site of interest is at $56^{\circ} 46' 50''$ North; $60^{\circ} 35' 15''$ East. I made an enlargement from the SPOT photograph and have circled the site of interest, as shown on the enclosed copy.

With best wishes,

Sincerely,

Matthew Meselson
