Dear Mr. Mashhadi:

Certainly this is the time for us to publish an article by you in the Chemical Weapons Convention Bulletin. It would be particularly good if you could present your views on how to complete the negotiations and achieve wide adherence to the Convention. I therefore invite you to submit an article for publication in our June issue (#12). I will need to have your text before the end of May, preferably before May 20. My FAX number is (617) 495-8308.

With very best regards,

Sincerely,

Matthew Meselson
