Washington, DC 20310-0110

Dear Col. Azuma:

It was a pleasure to meet with you this past Wednesday, and to discuss various aspects of chemical demilitarization. For your possible interest, I enclose an English translation of the presentation made at the April 9-11 meeting, the Conference on the Banning and the Destruction of Chemical Weapons in Moscow which I attended.

I look forward to receiving monitoring data on emissions from JACADS. I will then try to prepare a short paper setting these emission values in a general context as compared with emissions from other activities.

Sincerely,

Matthew Meselson
Professor of Biochemistry
and Molecular Biology
