Professor Matthew Meselson  
Department of Biology  
Harvard University  
7 Divinity Avenue  
Cambridge, MA 02138

Dear Professor Meselson:

I am glad that since our last correspondence no chemical weapons were fired at us. However, the issue has been, on and off, discussed in Israel.

I plan to be in the United States (September 4 through 17), and plan to be in Boston on September 11th and 12th. I still work on military forces and capabilities in the Middle East, and this covers also the NBC aspects. Will you be in Boston on September 11 and 12, and will you have time to meet me and discuss what is new in NBC in the Middle East, Iraq, Israel and other Middle Eastern countries?

Sincerely,

*Z. Eytan*
