Dear Mat,

This is to acknowledge reception of your letter. I realize that we did not inform you very much of our work. We have written a wealth of internal reports, on the basis of which we are planning to write several papers. Accompanying is a sample of the kind of directions we have explored somewhat.

You should know that Steve Black and Pete Zapf are not even graduate students. They got their bachelor degree recently at CMU. Steve is a tremendous asset and is planning to apply for graduate studies. I hope he gets the very best, as he deserves it.

As for Jessica Stern, some advice from you would be welcome. I understand that without your participation to her jury, her case in Harvard is somewhat problematic. But from what I understand, you do not seem keen on having that role. Am I completely misinformed?

Cordially
