Dear Matthew:

Thanks for your note of September 26. I waited awhile since receiving it to see whether I would get anything from Geneva. Unfortunately, I did not. Would it be possible for another copy of your report to be mailed to me?

You may be interested to know that my new book on proliferation (NBC and missile) is out. It is *Doomsday Weapons in the Hands of Many: the Arms Control Challenge of the '90s*, published by University of Illinois Press.

Thank you again for including me in the Pugwash Conference. I benefitted from the discussions quite a lot.

Sincerely,

Kathleen
