Dear Dr. Binenfeld:

No one I have asked knows of any natural or manmade phenomenon that would explain the remarkable fibers described in your FAX of 11 November.

Unless there is clear evidence that the material is thrown from planes, the description points more to a natural phenomenon than to an artificial one. If you send a photograph, I would be glad to show it to local entomologists and other biologists.

With warm regards,

Sincerely,

*Matthew Meselson*
