56, RUE DE MOILLEBEAU

1211 GENEVA

To Fax No: 0101-617-495-8308
From Fax No: 4122-7348085
Repeated Fax No: 44-273-685865

No : Pol-7/2/92
Dated : 5 March 1992

Most Immediate

Professor Matthew Meselson, Department of Biochemistry and Molecular Biology, Harvard University.

Repeated to Professor J P Perry Robinson, Senior Fellow, Science Policy Research Unit, University of Sussex.

From Permanent Representative Ahmad Kamal

I have just heard from Pakistan about their continuing difficulties in finding mutually convenient dates during the current year for the proposed regional seminar on the chemical weapons convention.

2. The possibility of our reprogramming the seminar in a years' time has also been examined but it is questionable whether this would have any utility owing to the expected conclusion of the Chemical Weapons Convention before that time.

3. I myself deeply regret that we have not been able to build upon your willingness to help in organising and funding this seminar in Pakistan.

(Ahmad Kamal)
Permanent Representative
