THE AMBASSADOR

March 31, 1992

Dear Professor Meselson:

It was good to see you on March 17. Our discussion was very useful for me, especially your comments on your paper about U.S. policy on exempting RCAs from coverage under the CWC.

As I mentioned during our visit, a proper answer to the questions raised in your paper can only be provided by my authorities in Washington. It would be best to address yourself initially to them. In any case, I have already forwarded a copy of your paper to ACDA in Washington and expect that you will receive a reply directly from them.

Again my thanks for sending me a copy of your paper, and for taking the time to explain your views to me.

Sincerely,

Stephen J. Ledogar
