Dear Professor Gavryushov,

I wish to invite Dr. Olga V. Yampolskaya to join me in a medical-scientific expedition to the city of Ekaterinburg during the period June 4-14. The purpose of the expedition is to recover, preserve and study records and materials relating to the 1979 outbreak of anthrax in that city in order to gain knowledge of use in understanding, preventing and treating human anthrax. We will pay all expenses of Dr. Yampolskaya during the expedition, including round trip travel Moscow-Ekaterinburg-Moscow.

Sincerely yours,

Matthew Meselson
