Dr. Matthew Meselson
Dept. of Biochemistry
Harvard University
Cambridge, MA 02138

Dear Matthew,

Arnold is putting together a chapter on the herbicides in Vietnam. He has asked me to do a brief survey of the period before he joined the troops in about 1983. I must admit to doing this in Maine from memory. I would very much appreciate your reading it over and correcting anything that you think is erroneous or adding any suggestions that you think important which Arnold will then include in the final version which I will have a chance to vet before it is published.

Yours sincerely,

John D. Constable, M.D.
