Dear Ms. Page:

The proposal from Dr. Joseph F. Bunnett is meritorious. The members of the task force include experienced high level experts who can make a real contribution to the international coordination of programs for the destruction of chemical weapons mandated by the recently negotiated Chemical Weapons Convention. The budget is not included with this material I have but since no actual research work is involved, I would expect the request to be for an amount consistent with travel and meetings and limited overhead only.

Sincerely

Matthew Meselson
Professor of Biochemistry
and Molecular Biology
