Matthew,

It was a very real pleasure to meet you last week. It is a pity it was so short a meeting but perhaps it may be possible to meet again in the future.

I have received your fax and, as discussed, I am happy to provide the data requested and arrange for it to be sent to you. Since I leave for the UK tomorrow, I will be taking your fax with me to the UK and will work on it there. This will also enable me to discuss the various items with Mr. Ron Manley who has been very closely involved in all the details of UNSCOM's CW destruction programme at Muthanna. I will fax the completed questionnaire to UNSCOM New York for them to retransmit directly to you. I believe this is the most appropriate route since I will be dealing with information acquired or generated by UNSCOM and they need to be kept well within this communication net.

With best regards.

A handwritten signature in cursive script that reads "Bryan".
