

Cannone

28 January 1993

Dear Pierre,

Here are two photocopies of SPOT 150-234 of 31 August 1988, for which I would most appreciate computer-enhancement to permit optimal recognition of streets.

If the product is a print, the most useful box is the red one. If the product is a negative, the most useful box is the green one. If it is all the same, I would prefer the negative.

In a few days, I will send a memorandum summarizing recent conversations in Moscow.

With very best regards from Jeanne and me,

Sincerely,
